

## **2165 Cheap as Chips**

Proposer: Lauren Moreton (PG Assembly)

Seconder: Rob Klim (Ethical Issues Officer)

### **Union Notes**

1. Winter is coming and there are cold nights ahead.
2. Everyone is aware of how expensive food can be on campus.
3. The SU already has Value Range of products across its outlets to offer a cheaper option
4. The SU makes over £1 million in profit from its commercial services

### **Union Believes**

1. Whilst it is good in principle that the SU has a value range it is currently inadequate
2. A hot food offering for a £1 would help students to keep warm on campus
3. A hot food offering for a £1 could increase student welfare and ability to learn during winter months.
4. A hot food offering for a £1 would still be able to meet a GDP of 40% ensuring it is still possible for the SU to maintain a profit margin and to offer a much need product for students

### **Union resolves**

1. For the SU to launch a hot food offering for £1 in one of their outlets. This could be in the form of chips(as per name of motion), noodles or even possible a soup+ bread.
  2. This offer should be launched as soon as possible. No later than January 2018
  3. This offer would be vegetarian, vegan and gluten free if cost possible.
