- Film in LCR

7. Update from Presidents

8. Presidents meeting – invite new presidents to this meeting or next?

9. Time, Date and Place of next meeting

- TBC

Notes on swimming grant:

ES - Unfair to award tech equipment from club grant. Not essential, may give advantage for social media awards. Feels they haven't fully explained why the club need the backstroke pads and their grant request comes across more like a shopping list.

TF – Application not thought out. Feels they are going with brands they know rather than doing their own research. Already have a lot of money in subs account. Feels they have enough money to buy the backstroke pads themselves based on having less spending this year. Feels they haven't fully explained why the club need the backstroke pads.

TF – If they are willing to spend £400 themselves on the iPad, they can now use this on the backstroke pads.

KS – iPad seems unnecessary as clubs use personal devices to add posts to social media

VK – Tech supported by Claire from UEA Sport to develop technique.

DM – Can borrow GoPros from UEA Sport therefore don't need their own personal GoPro. Echoes opinion that iPad is also unnecessary. I think they should rewrite the grant with more explanation around the back pads.

RP – Doesn't feel technology should come out of grant pot.

OD – Would like them to rewrite the grant request and tell us why it is unexpected and needed
