- It is up to the discretion of uea+sport and the respective club committee to permit community members joining where it is appropriate and necessary for the club.
- Associate memberships expires on the 31st July each year, regardless of when the membership was acquired. This is to keep membership length in line with that of standard UEA student membership.
- If a non-student wants to join your club as an associate member and they bring a benefit to the club such as they are a van driver, can provide maintenance on equipment, there is the possibility the uea+sport department can waive their SAM and club membership fee, but we will need to discuss this with your club first.
- uea+sport and UEA SU has the right to impose a limit of the number of non-students selected in each match/performance day squad. This is to ensure UEA clubs are not dominated by community members. These limits will be decided on a sport by sport basis based on the normal match/performance squad size for that respective sport.
- Current examples of these limits are as follows.
 - Basketball – 4 community members per match/performance day squad
 - Hockey – 3 community members per match day squad
 - Football – 3 community members per match day squad
 - Rugby – 5 community members per match day squad
- If clubs have queries about community members limits for their clubs they should contact the uea+sport performance sport manager via performance.sport@uea.ac.uk

- City College Norwich (inc Easton College) students registered to compete for a CCN club in any BUCS competition cannot then register with UEA to compete for a UEA club in any given year.
